

**Description :**

Magnetical resistance thermometer for surface mounting.  
 Sensor inheres on all iron surfaces without special mounting systems.

**RTD :**

Pt100 acc. DIN EN 60 751 / 3-wire connection  
 other types e.g. Pt1000 or Ni100 on request

**Accuracy :**

Class B according to DIN EN 60 751

*The tolerances for Pt100 RTD`s according to chart „Values and Tolerances of Pt100 resistance thermometers“ in appendix.*

**Electrical Connection :**

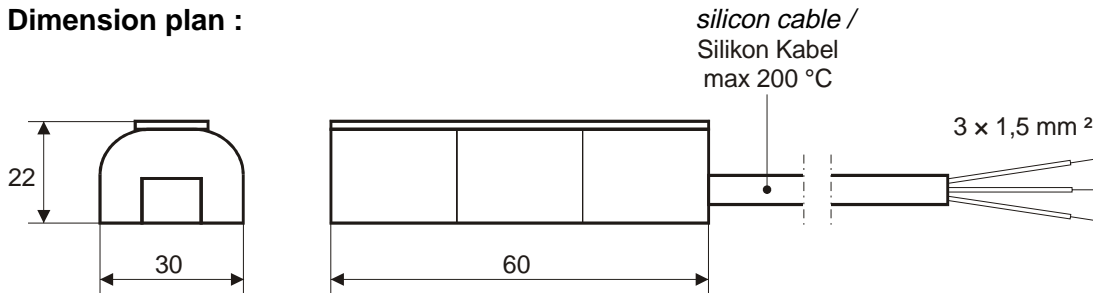

Silicon - cabel 3 × 1,5 mm<sup>2</sup>

**Temperature Range :**

0 ... 200 °C

**Dimension plan :**

RTD	
Ordering-code	P
1 × Pt100 Kl. B .....	1
1 × Pt100 Kl. A .....	2
2 × Pt100 Kl. B .....	3
2 × Pt100 Kl. A .....	4
Special RTD .....	9

max. cable length 20 m
